Versatile and robust hiking bag with a volume of 32L

Description

The R32 PRO FLEX is a robust and versatile bag. It offers a large volume of 32L, ideal for long hikes. Compatible with FLEX technology, you can vary the volume if your needs change. Designed to withstand demanding and intensive use, the R32 PRO FLEX's accessories have been designed to adapt to all situations. Perfectly equipped to carry skis, a snowboard or an ice axe, you can also carry your skis diagonally and choose their orientation. Its safety pocket placed at the front of the bag will make your shovel and probe accessible in a fraction of a second. Reinforced and optimized to resist moisture and abrasion, your ARVA REACTOR airbag equipped bag will never let you down. With the reinforced foams and 3D-FIT system, you'll enjoy optimum comfort that will adapt to all body types. It has front access to the main compartment, a dedicated pocket for your mask or small valuables, a reinforced front panel, a waist belt with two side pockets, one of which is removable, it is compatible with hydration systems, a comfortable back with thick, sturdy padding, and a chest strap with a safety whistle. TUV GS certified
Meets EN16716 standard
