Inflatable lifejacket SIGMA 170N

### Description

The SIGMA lifejacket is lightweight and comfortable, ideal for coastal navigation.

Equipped with reflective strips, double seams at the ends of the air chambers and an inspection window, it enables the wearer to check that the release mechanism is in good condition. Depending on the model, it features a manual or automatic release mechanism.

It is also equipped with a mouth inflation tube and a relief valve.

A whistle and stainless steel D-ring facilitate rescue at sea.
