

OCEANO REVERSIBLE LIFERAFT

https://www.securhit.com/en/rescue-rafts-and-boats/1005-2405-radeau-de-sauvetage-oceano-reversible.html#/2000-max_de_personnes_798_799-25

OCEANO reversible liferaft

Description

The OCEANO liferaft is ideal for passenger vessels on inland and coastal waters.

The liferaft is fully reversible and can be used in either direction, with the floor placed between the two buoyancy chambers.

Once thrown onto the water, the raft inflates under a strong pull on the hump line and is then ready for boarding.

Technical information :

- The buoyancy tubes are fitted with indicator lights and reflective materials for optimum visibility.
- The upper and lower buoyancy tubes are each equipped with a safety valve and an inflation/deflation valve.
- 2 semi-rigid ramps facilitate boarding.

Available models:

- 25 people max. diameter 4114 mm / support dimensions 600 x 560 mm / Weight 92 kg.
- 30 people max. diameter 4474 mm / support dimensions 600 x 560 mm / weight 109 kg.
- 50 people max. diameter 5680 mm / support dimensions 600 x 660 mm / weight 168 kg.
- 65 people max. diameter 6434 mm / support dimensions 600 x 660 mm / weight 215 kg.

Caractéristiques

- Coloris : Noir et orange
