OMEGA 290N inflatable lifejacket

Description

The OMEGA inflatable lifejacket is designed to withstand wear and tear and extreme weather conditions.

Lightweight and highly resistant, it features an automatic inflation mechanism certified to ISO 12402-7. Its yellow color and reflective stripes ensure visibility at sea.

The inner tube is stored in a nylon bag with Velcro closure, to which a whistle is attached (ISO 12407-7/8 certified).

The vest is also fitted with a D-shaped stainless steel ring that facilitates rescue at sea.

Features :

- Integrated black harness, CE ISO 12401 certified
- Double air chamber for total safety.
- Automatic mechanism, set so that it does not activate out of the water.
- Storage bag included.
- Adjustable straps.

Caractéristiques

- Indice de flottabilité : 290 Nt lorsqu'il est gonflé
