Robust and versatile 40L bag

Description

The R40 PRO FLEX is the rugged and versatile bag that offers a very large 40L volume, ideal for long multi-day hiking trips. Compatible with FLEX technology, you can vary the volume as your needs change. Designed to withstand demanding and intensive use, the R40 PRO FLEX's accessories have been designed to adapt to all situations. Perfectly equipped to carry skis, a snowboard or an ice axe, you can also carry your skis diagonally or laterally (A-Frame) to limit the load shift and reduce your effort during the carrying phases. Its safety pocket on the front of the bag makes your shovel and probe accessible in a fraction of a second. Reinforced and optimized to resist moisture and abrasion, your ARVA REACTOR airbag equipped bag will never let you down. With the reinforced foams and 3D-FIT system, you'll enjoy optimum comfort that will adapt to all body types.

It has front access to the main compartment, a flat quick access front pocket, a reinforced front panel, a waistband with two side pockets, one of which is removable, it is compatible with hydration systems, a comfortable back with thick and sturdy padding and a chest strap equipped with a safety whistle. Meets EN16716 standard - TUV GS certified
