Portable 10L low-expansion foam production unit

Description

The UPRIM portable foam production unit is designed for fire-fighting. This versatile tool can be used to fight vehicle fires, suppress toxic fumes or protect against industrial fires.

With its 10-liter emulsifier reserve, it has the extinguishing capacity of over 40 extinguishers.

Extremely robust and rustproof, with an indestructible rotomolded polyethylene tank, it's also reliable and precise, with the ability to dose 1, 3 or 6% foam.

Easy to use, simply fill it with emulsifier through its large orifice and connect it to an RIA or fire engine for rapid intervention.

Its ergonomic handle makes it easy to transport to the intervention zone.

Technical specifications:
- Flow rate: 60L/m
- Operating pressure: 3 to 10 bar
- Dosage: 1%, 3%, 6%.
- Lance: low expansion
- Foaming: 8 -10
- Reach: 4 to 9 m
- Inlet connection: DSP40

Caractéristiques

- Dimensions : 630 x 274 x 185 cm
- Capacity : 10 L
- tare weight : 3.25 kg
