

EMERGENCY PLUG FOR K9 PROJECTOR

<https://www.securhit.com/en/mobile-lighting/1022-plug-de-sous-secours-pour-projecteur-k9.html>

Emergency plug for K9 spotlight

Description

This system enables all the K9's LEDs to light up in the event of a power cut.

Using the same radio receiver as the projector's remote control, the emergency plug will detect the slightest power cut and, if necessary, send a signal to light up all nearby K9s.

Please note that the K9 projector must be equipped with an HDR transmitter/receiver for data transmission. Please contact our sales department for further information.

Caractéristiques

- Power : 110 - 240 V
