WIRELESS REMOTE CONTROL FOR K9 LIGHTING

https://www.securhit.com/en/mobile-lighting/1023-telecommande-sans-fil-pour-eclairage-k9.html

Wireless remote control for K9 spotlight

Description

This remote control system enables one or more stand-alone K9 spotlights to be switched on remotely. It can control up to 30 spotlights, with the signal relayed from unit to unit.

Please note that the K9 projector must be equipped with an HDR transmitter/receiver for data transmission. Please contact our sales department for further information.

Featuring MESH technology, the remote control uses MESH networks to ensure communication between projectors.

Caractéristiques

- Power : Piles AA (non fournies)
