POKET WYE PN40 Division □ Compact, Durable, and Practical

Description

The POKET WYE PN40 division is designed for professional firefighting operations with a nominal pressure of 40 bar. Equipped with bronze GFR DN20 fittings and key-handled valves, it offers a compact, robust, and easy-to-use solution, perfectly suited for storage on emergency vehicles.

Made from first-fusion aluminum alloy with heat treatment and coated in yellow polyester, the POKET WYE ensures optimal resistance under demanding conditions. Integrated feet maintain a stable horizontal position on the ground for safe handling during operations.

Technical Specifications

- Inlet: Female GFR DN20 PN40
- Outlets: 2 x Male GFR DN20 PN40
- Dimensions (L x W x H): 176 x 188 x 102 mm
- Weight: 2.4 kg
- Color: High-visibility yellow

Key Features

- Compact and lightweight, ideal for vehicle storage
- Durable construction with heat-treated aluminum and polyester coating
- Reliable fittings and valves rated PN40
- Stable on the ground thanks to integrated feet

The POKET WYE PN40 division is the ideal choice for firefighters and emergency response teams seeking reliable, high-performance, and easy-to-handle equipment.
