FDF III Foldable Fire Hose Reel - Compact and Practical

Description

The FDF III foldable fire hose reel is designed to provide optimized hose storage with its handle locking system. Lightweight and robust, it ensures easy handling and storage in emergency vehicles or on-site.

Construction and Materials
- Epoxy-painted steel for excellent corrosion resistance
- Quick-release, easily extractable crank handle for fast winding and unwinding
- Suitable for hoses with diameters of 22, 45, or 70 mm
- Dimensions: Width 160 mm, Depth 120 mm, Height 650 mm
- Lightweight: 3 kg

Key Features
- Compact and foldable, ideal for space-saving storage
- Durable and robust thanks to epoxy-coated steel
- Easy-to-use crank handle for effortless hose management
- Compatible with multiple hose diameters

The FDF III foldable fire hose reel is the perfect choice for firefighters and fire safety teams seeking a practical, lightweight, and durable solution for efficient hose storage.
