Skein hose reel

Description

The skein hose reel facilitates the bending of flat hoses and allows three different types of rolling.
It makes bending easier and protects hoses from wear and tear.
Its ergonomic foot ensures stability when used in industrial environments or in the field.

Technical features :
- 3 types of rolling: Double round, Z or O.
- Panel: diameter 1000mm
- Foot: Width 450 mm, Length 700 mm

Caractéristiques

- Weight : 29 kg
- Hauteur totale : 1800 mm
