Dräger SPF 7000 full face mask

Description

The FPS 7000 full-face respirator combines comfort and safety, offering optimum field of vision in the most difficult situations. It protects against particles and/or gases and vapors depending on the respiratory device used.

Technical features :

- Large, anti-distortion polycarbonate lens ensures a wide field of vision (180° angle).
- Double seal with three sealing lips offers reliable protection and a secure fit.
- Easy to put on and take off thanks to its head bandage / 5-point harness attachment.

Compatible with :

- RD40 filters
- Assisted ventilation
- Air supply unit - SCBA
- ARICF

Certified NF EN 136 class 3, NF EN 137 type 2, DIN 58610.

Available on request in S, M and L sizes.
