

RETURN KIT FOR TRIPOD TM14

<https://www.securhit.com/en/winches-tripods-and-fall-arrest-systems/105-kit-de-renvoi-pour-tripode-tm14.html>

Cantilever rescue system set for TM14

Description

Optional aluminium kit, adaptable on tripod to carry out rescues on walls or cliffs.

The kit includes 2 stabilizing legs, a cable head pulley, an anti-tilt plate, 2 foot plates and is easily and quickly mounted on the 1000 kg tripod.

The kit is compatible with the RP503 cable winch, with a load of 200 kg.

The head of the return is equipped, in addition to the pulley, with 2 attachment points for mounting a fall arrester or a hauling device.

The anti-tilt plate can be weighted with various materials or by or by placing the wheel of a vehicle on it, but it can also be placed on the ground.

Offset 71 cm, head height 208 cm, wheelbase 165 cm.

The tripod return kit is particularly suitable for particularly suitable for urban rescue.

Certification CE EN 795/B:2012 - TS 16415/B:2013.
