STIHL MS462 chainsaw

Description

Lightweight and powerful, the STIHL MS462 chainsaw is designed for professionals and ideal for heavy-duty work in the forest.

Equipped with Stihl's M-Tronic system, its engine automatically adjusts ignition and fuel dosage according to weather conditions. In addition, the decompression valve ensures easy starting and reduces the effort required on the starting device.

With a bar length of 45-63 cm and low vibration levels, it's ideal for demanding forestry work.
