STIHL TS 410 thermal cutter

Description

Lightweight, compact and extremely manoeuvrable, the STIHL TS410 thermal cutter is ideal for intensive cutting work on job sites. It guarantees precise, efficient cuts.

Equipped with a 300 mm cutting disc, it can make cuts up to 11 cm deep. Its stratified sweep motor offers 3.2 kW of power and its anti-vibration system ensures optimum comfort, even during prolonged use.

Technical specifications:

- Equipped with cyclonic pre-filtration that eliminates 80% of dust particles.
- Ergonomic handle for precise tool guidance.
- Integrated water connection for a constant supply of water to rinse the cutting disc, agglomerate dust and cool the cut.

Caractéristiques

- Power : 3.2 kW
- Weight : 9.5 kg
- Diamètre de coupe : 300 mm
