

ARI DRAEGER BODYGUARD 1000 DISTRESS BEACON

<https://www.securhit.com/en/respiratory-protection/1083-balise-de-detresse-ari-draeger-bodyguard-1000.html>

BODYGUARD 1000 emergency beacon for ARI carrier

Description

The Dräger BODYGUARD 1000 distress beacon is designed to alert a team when a SCBA wearer is immobile or in distress. It emits clear signals and alarms to ensure rapid detection of the wearer even in difficult operating conditions.

After a period of 25 seconds without movement and a further 8 seconds without cancellation, the beacon emits a directional alarm to make it easier to locate a wearer in distress.

Technical specifications:

- Operates in the harshest environments with a temperature range of -30 to +60°C.
- Compatible with all SCBAs
- 2 front LEDs make it easy to locate the wearer in poor visibility conditions.
- Data-logging function for downloading incident history.
- 2 operating modes, button or key, for managing entry checks.
- Thermal alarm activated when ambient temperature rises rapidly or exceeds pre-set safety levels.

Certifications: EN 137:2006 Type 2; BS 10999:2010 ;
ATEX Directive - 2014/34/eu / II 1 G Ex ia IIC T4 Ga / II 1D Ex ia IIIB T200°C
Da / I M1 Ex ia I Ma / Ta : -30 to +60°C

Caractéristiques

- Dimensions : 100 x 70 x 40 mm

- Weight : 230 g
- Battery : 2 batteries Lithium CR123 Panasonic
- Autonomy : 12 mois (conditions d'utilisation normales)
