Petzl AVAO FAST harness European version

Description

The international version of the AVAO harness is specially designed for professionals working at height. Preformed foams and the semi-rigid construction of the waistbelt and thigh loops ensure optimum comfort in use. The waistbelt has a tool holder and a tool loop for organising all the equipment needed for a day's work.

TECHNICAL FEATURES :

- Shoulder straps, waistband and thigh straps made from preformed foam and lined with breathable fabric.
- Back of thighs fitted with elasticated straps to ensure a snug fit.
- Thigh loops with FAST opening buckles for quick and easy opening and closing.
- Self-locking DOUBLEBACK buckles on shoulder straps, waistband and thigh straps for easy, practical adjustment.
- Ventral connection point with textile loop for attaching a lanyard/decender/single-use lanyard/harness.
- Two metal side attachment points for connecting a double support lanyard.
- Sternal and dorsal attachment points for connecting a fall arrest system.
- Attachment point at the back of the belt for connecting a restraint lanyard.
- Five preformed equipment holders with protective sheath.
