

SPIDER STRAP FOR HARD SURFACE

<https://www.securhit.com/en/immobilization/1101-sangle-araignee-pour-plan-dur.html>

Hard surface spider webbing

Description

This spider strap system immobilises and holds an adult victim on a hard surface.

Its hook-and-loop fastening system effectively immobilises the victim's body and enables them to be transported safely to the emergency services.
