

CDK VACUUM MATTRESS WITH BAG AND PUMP QMX 109

<https://www.securhit.com/en/immobilization/1108-matelas-a-depression-cdk-avec-sac-et-pompe-qmx-109.html>

CDK vacuum mattress supplied with bag and QMX 109 pump

Description

The CDK vacuum mattress ensures complete and safe immobilisation of the victim during transport. Robust and reliable, the CDK mattress is fitted with a passing cord that can be used as a handle in the lower section and as a fastening system for the securing belts in the upper section.

The inflation valve is made of chrome-plated brass with a built-in rubber holder for guaranteed hold at any temperature.

The mattress comes complete with storage bag and QMX 109 vacuum pump with double valve for inflation and vacuum.
