BASIC BLOCKER

https://www.securhit.com/en/pulleys-and-ascenders/111-bloqueur-basic.html

Compact and versatile blocker

Description

The BASIC rope clamp is particularly compact, which makes it easy to hold.
It is versatile and can be used as a fixed rope ascender or as a backstop in a haul.
A pinned trigger with an evacuation slot to optimize operation, whatever the conditions (frozen rope, mud...). This trigger is made of stainless steel for better corrosion resistance.
A large bottom hole for easy connection of lanyard and pedal carabiners.
An upper hole for clipping the rope.
It is compatible with ropes from 8 to 11 mm
And certified CE EN 567, CE EN 12841 type B, UKCA, EAC

Caractéristiques

- Weight : 85 g
