Automatic nozzle LEGEND

Description

The LEGENDE automatic spray gun is made from aluminium alloy and features an ultra-compact pressure regulation system, as well as a flow rate selection via its indexed operating handle.

Its aluminium alloy diffuser head with cut teeth allows the spray pattern to be adjusted to three positions (straight spray, attack spray and wide-spread spray).

Its very low recoil and fine droplets ensure highly effective work on urban traffic lights.

Technical specifications:

- Nominal pressure: 16 bar
- Valve type: slide valve
- Opening: by handle
- Drain position: yes
- Material: aluminium alloy
- Surface treatment: polyester paint
- Flow rate: 500 l/min
- Operating pressure: 6 bar
- Input: DSP 40

Caractéristiques

- Dimensions : 260 x 127 x 257 mm
- Weight : 2.3 kg
