ERMAK PLUS water waistcoat

Description

The ERMAK PLUS water-carrying bag is specially designed for extinguishing small fires.

Resistant and comfortable, the flexible inner tank is protected by a black and yellow Cordura® outer fabric.

A double back cushion provides optimum comfort when the tank is full, as well as thermal protection. In addition, its wide, adjustable shoulder, waist and sternum straps provide an optimum fit.

There are also attachments for a radio and microphone.

A large cap attached to the backpack makes it easy to fill the tank.

The double-action hand pump has a spray extension to regulate the flow.

Available in three different volumes:

- ERMAK 16

Volume: 16 L

Dimensions: (W) 440 x (L) 600 x (H) 115 mm
