

## BAMBI FULL BODY HARNESS

<https://www.securhit.com/en/harnesses-and-belts/113-harnais-complet-enfant-bambi.html>

Harness for children under 40 kg

### Description

A simple and practical harness for growing climbers less than 40 kg in weight.

By means of its 2 automatic adjustment buckles on leg loops and on the shoulder straps, BAMBI II adjusts perfectly and easily to all body shapes

A colour code identifying body straps and leg loops helps when putting the harness on

Waistbelt : 40-60 cm - Leg loops : 35-60 cm - Weight : 350 gr - Chest size : 54 cm.

Do not use this harness in canyoning.

Certification CE EN 12277 type B
