Complete kit for realistic CBRN simulations

Description

This complete kit contains all the equipment needed for a realistic CBRN risk scenario. It makes it easy to recreate various scenarios involving hazardous materials, making training more immersive and educational.

The equipment faithfully imitates the look and smell of hazardous substances, with authentic signs and markings.

Kit contents:

- Magnetic ADR number set: includes 40 x 30 x 8 cm plastic case.
- Diamond Light (NFPA), magnetic kit: includes 40 x 30 x 8 cm plastic case.
- Set of magnetic Danger symbols: included in 40 x 30 x 8 cm plastic case.
- 6 coloured liquids (yellow/ green/ blue/ red/ black/ white) with 30 x 20 x 22 cm plastic case.
- 6 shades of smoke cartridges (5 blue/ 5 grey/ 5 yellow/ 5 green/ 5 orange/ 5 red).
- 1 chemical odour spray

All the training tools are supplied in a sturdy carrying case.
