European version of the PETZL ASTRO harness

Description

The ASTRO harness has been specially developed for professional rope access workers. Its design is perfectly suited to the requirements of vertical movement and progression. Thanks to its 3D padded foams and semi-rigid structure at the waist and thighs, it offers optimum comfort throughout the work.

Its openable ventral attachment point makes it easy and efficient to integrate the equipment needed for progression. Fitted with the CROLL L integrated rope clamp, it optimises performance when ascending ropes.

The waistbelt has metal side attachment points, gear loops and tool loops, making it easy to organise and transport the equipment you need for a day's work.

Finally, the FAST opening buckles and DOUBLEBACK PLUS self-locking buckles ensure quick donning and easy adjustment, even when wearing gloves.

Certifications: CE EN 361, EN 813, EN 358, EN 12841 type B

Materials: polyamide, polyester, aluminium, steel

Available models:

CO83AB00:

- Colour: Black/ Yellow
- Size: 0
- Waist: 65 - 80 cm
- Thigh: 44 - 59 cm
- Stature: 160 - 180 cm
- Weight : 1930 g

CO83AB01:

- Colour: Black/ Yellow

- Size: 1
- Waist: 70 - 93 cm
- Thigh: 47 - 62 cm
- Stature: 165 - 185 cm
- Weight: 1935 g

CO83AB02:

- Colour: Black/ Yellow
- Size: 2
- Waist: 83 - 120 cm
- Thigh: 50 - 65 cm
- Stature: 175 - 200 cm
- Weight: 2060 g

Caractéristiques

- Coloris : noir/ jaune
