DURALINE 10.5 MM PETZL semi-static rope

Description

PETZL's DURALINE 10.5 mm semi-static rope is designed for work at height, difficult access and rescue operations.

Its aramid fibre sheath makes it more resistant to abrasion, friction and heat than conventional ropes. Its reduced diameter makes it light and flexible. What's more, it has a rigid marking tip at the end, guaranteeing better traceability and greater durability.

The length and packaging of the rope can be fully customised to suit the user's specific needs.

Technical specifications:

- Diameter: 10.5 mm
- Materials: aramid, polyamide
- Weight per metre: 75 g
- Strength with figure-of-eight knot: 18 kN
- Impact force (factor 0.3): less than 6 kN
- Number of falls factor 1: greater than 5
- Construction: 32 spindles
- Sheath percentage: 40 %
- Static elongation: 2.3 %

Certifications: CE EN 1891 type A, UKCA, NFPA 2500 Technical Use, XF 494: FZL-S-Q10.5
