ARIES TREE work helmet by CLIMBING TECHNOLOGY

Description

The ARIES TREE work helmet from CLIMBING TECHNOLOGY is specially designed for professionals in pruning and mountain rescue.

Its ergonomic design ensures maximum comfort and excellent visibility in all directions. Its particularly hard-wearing ABS skullcap ensures optimum shock absorption. It also features ventilation holes for effective internal ventilation.

Technical specifications :
- One-hand headband adjustment, with two-position height adjustment.
- Breathable Cordura internal mesh and comfortable, washable and replaceable headband foam.
- High-strength chinstrap (> 50 daN) to reduce the risk of loss in the event of a fall.
- Integrated headlamp holders.
- Inserts for quick-fit earmuffs (e.g. 3M-Peltor, MSA).
- Compatible with VISOR A and VISOR A-F visors (anti-scratch and anti-fog treated), which can be attached using a practical clip system.

Complies with standard EN 12492.

Caractéristiques

- Weight : 400 g
- Size : unique (adaptable de 53 à 63 cm)
