Evacuation triangle for vertical rescue operations

Description

The TRI ANGEL evacuation triangle is designed for vertical rescue operations. Its features make it particularly effective for rescuing casualties. Its adjustable straps make it easy to position. These are a different color from the rest of the triangle for quick and easy positioning on the victim. With its three-level webbing positioning scale, the TRI ANGEL adapts to the size of the victim. It has an individual identification number as well as a customizable identification area with QR code for optimal traceability. Certification CE EN 1497:2007 - EN 1498:2006

Caractéristiques

- Weight : 747 gr
- Size : Universel
- Material : Polyamide
