SG40 Red Medical First Aid Bag - 40L Emergency Response Medical Backpack

### Description

The SG40 red medical first aid bag is a professional emergency response backpack designed for rescue teams, medical interventions, and first aid equipment transport. With its 40-liter capacity and optimized internal organization, it allows fast and structured access to all essential medical supplies during emergency operations.

Robust, ergonomic, and designed for demanding environments, this medical intervention bag is suitable for emergency medical professionals and rescue responders.

High-capacity medical bag with optimized organization

The SG40 bag features a full opening system with a YKK® zipper, ensuring quick and complete access to all equipment. Its rigid internal structure provides excellent stability and protection for medical supplies. It includes multiple external compartments for optimal organization:

- 2 main pockets (26 x 22 x 9 cm)
- 2 side pockets (13 x 13 x 6 cm)
- 1 large side pocket (38 x 12 x 6 cm)

All pockets are high-visibility fluorescent colors with reflective strips, ensuring excellent visibility in low-light or emergency conditions.

Modular internal layout for medical equipment

The SG40 is designed for professional medical organization with modular storage solutions:

- 4 removable internal pouches (29 x 13 x 12 cm) with transparent front and handle
- 4 additional removable pouches (26 x 10 x 7 cm), also color-coded and transparent

This modular system allows fast identification of equipment and flexible organization depending on mission requirements.

Comfortable and ergonomic transport system

The SG40 medical bag is designed for extended carrying comfort:

- Padded back panel for improved comfort
- 2 wide carrying handles
- 2 padded shoulder straps for backpack use
- Adjustable chest and waist straps for stability during movement

High-resistance professional materials

- Outer material: Cordura® 110 dtex
- Inner material: 210D PVC polyamide

These materials ensure high durability, resistance to wear, and suitability for intensive field use.

Key benefits of the SG40 medical bag

- 40L large capacity for first aid and emergency equipment
- Full opening for rapid access
- Modular internal organization with color-coded pouches
- High visibility with reflective strips
- Ergonomic transport system (backpack, handles, straps)
- Durable materials designed for field operations
- Ideal for emergency medical and rescue operations
