BEAL DYNAPRO AIR HOOK fall arrest lanyard

Description

The DYNAPRO AIR HOOK is specially designed for professionals working at height in the construction, industrial maintenance and structural steelwork sectors.
Designed to guarantee optimum safety when working at height, the DYNAPRO AIR HOOK lanyard incorporates the ABSORB'AIR energy absorber directly into the DYNAPRO lanyard, meeting the requirements of standards EN 355 and EN 362.

Technical specifications :
- ABSORB'AIR integrated absorber: effectively reduces impact in the event of a fall, protecting the user.
- Three lengths available: 1 m, 1.5 m or 2 m, to adapt to different working configurations and guarantee optimum freedom of movement.
- Connectors included:
AIR SMITH 3-MATIC in steel for connection to the lifeline carriage or directly to the cable.
O'LIGHT 3-MATIC for secure connection to the harness anchorage point.
- Sewn termination with heart thimble: reduces rope wear at friction points.
- Removable protective sheath: provides a quick and reliable visual check on the condition of the lanyard, making regular checks easier.
- Individual identification: each lanyard is given a unique number and a customisable label, enabling rigorous equipment management.
- Easy traceability thanks to an integrated QR code, ideal for efficient and accurate digital tracking.

Caractéristiques

- Diameter : 11 mm
- Material : Polyamide
