NANOSHIELD 840 S3 shoes by PFANNER

Description

The NANOSHIELD 840 S3 shoe is designed to cope with the most demanding working environments. Combining maximum safety, top-of-the-range materials and everyday comfort, it is ideal for professionals in construction, industry and logistics.

Technical specifications:

- 1.8 to 2 mm thick full-grain cowhide leather, selected for its resistance, waterproofing and breathability.
- 4-layer Nanoshield membrane: waterproof and breathable to keep feet dry and cool.
- Highly abrasion-resistant TPU (thermoplastic polyurethane) reinforcement, ideal for intensive work and repeated jolts.
- Steel toe cap capable of withstanding a crushing force of up to 200 joules, meeting the requirements of EN ISO 20345.
- Steel anti-perforation sole, EN 12568 certified, providing effective protection against the risk of punctures.
- Dual-density PU outsole with heel cushioning, antistatic, slip-resistant (SRC) and oil and hydrocarbon resistant.
- Ergonomic shape and close fit for optimum support and increased stability during dynamic movements.
- Metal lacing hooks with anti-rust treatment ensure long-lasting, reliable lacing even in wet conditions.
- 16 cm high upper for excellent ankle support and extra protection against splashing or twisting.
- Weight of pair in size 42.

Standards and certifications:

- EN ISO 20345 S3: reinforced safety with toecap, anti-perforation sole and water resistance.
- EN 12568: conformity of the toecap and anti-puncture sole.
