PANDORA'S BOX 230 fire scenario creation kit

Description

The Pandora's Box 230 lets you create complex fire scenes by connecting up to 3 flame effects, a smoke machine and 2 speakers.
The whole system can be controlled remotely, wirelessly, from your smartphone or tablet via an intuitive interface.

It allows you to create dynamic exercises with realistic sound effects (multilingual calls for help, explosions, collapse noises, etc.) and modulate the intensity of the fire to simulate its evolution. Thanks to its rich, customisable audio library, you can adapt each scenario to your needs.

The Pandora's Box 230 is autonomous thanks to its built-in WiFi network, so several trainers can work simultaneously without any complex installation.

Technical information:
- 2 external speakers included.
- Stainless steel case integrated into a plastic carrying case.
- Includes a cable box with Schuko to Powercon adapter cables.

Caractéristiques

- Dimensions : 60 x 40 x 34 cm
- Weight : 10 kg
