LIGHT high-visibility fleece jacket

### Description

The LIGHT men's high-visibility fleece jacket combines comfort, practicality and safety. Designed for optimum visibility in low-light conditions, this jacket features 3M reflective strips for added protection. Ideal for outdoor workers, it offers the perfect combination of warmth, comfort and safety.

Technical specifications:

- Composition: 100% polyester, guaranteeing good thermal insulation and durability.
- Appearance: 288F fleece, a soft, pleasant-to-the-touch fabric that offers thermal protection while being breathable and lightweight.
- Strategically placed 3M reflective strips for optimum visibility even in low light conditions.
- Full-length plastic zip for practical, durable closure.
- Adjustable waistband for a customised fit, ensuring greater comfort and mobility.
- Elasticated cuffs to keep the sleeves in place and prevent cold air from seeping in, while providing a snug fit.
- Practical pockets: 2 zipped pockets for secure storage of your personal belongings / 1 zipped front pocket with detachable, re-sealable badge holder for easy identification.
- Reinforced seams for greater durability and resistance to wear and tear.
- Weight: 280 g/m<sup>2</sup>, making this jacket neither too heavy nor too light, ideal for cool climates while still allowing freedom of movement.

Jacket complies with EN ISO 13688:2013 + A1:2021 and EN ISO 20471:2013 + A1:2016 - Class 3.
