GLADIATOR VENTILATION cut-resistant trousers by PFANNER

Description

Designed for forestry professionals, the GLADIATOR VENTILATION trousers offer maximum protection, optimum freedom of movement and lasting thermal comfort, even in extreme conditions. They combine cutting-edge textile technologies with a lightweight design for intensive use.

TECHNICAL FEATURES :

- Dyneema® Class 1 cut protection, tough and ultra-lightweight
- Available in Type A (front of legs) or Type C (full protection)
- Pre-shaped knee reinforcements for targeted protection and a better fit
- Gladiator® fabric on the front: tear and abrasion resistant
- StretchAIR® technology: stretch fabric for maximum ease of movement
- KlimaAIR®: integrated ventilation system for excellent temperature regulation
- Inner lining made from technical polyester cocos fibres: breathable, lightweight and pleasant to the touch
- 25% lighter trousers than the classic Gladiator®, for less fatigue at work
- Integrated removable gaiters (Type A) to protect against dirt and insects
- Reflective piping for improved visibility

COMPOSITION :

- Front: 100% Gladiator® polyamide
- Stretch zones: 90% polyamide, 10% elastane
- Lining: 100% polyester cocos
- Cut protection: Dyneema® fibre

Available in sizes XXS to 3 XL.

Several colours available on request.

Securhit Group - 360 rue de la Curiaz - 73290 La Motte-Servolex - France
