Multi-risk, flame-retardant work trousers

Description

Designed to meet the demands of high-risk working environments, these protective trousers combine performance, comfort and safety. They are ideal for use in industry, maintenance, construction or any other sector requiring enhanced protection against thermal hazards.

Technical features :

- Flame retardant and antistatic protective trousers
- Material: 99 % cotton / 1 % carbon fibre - 350 g/m².
- Design: 4 outside pockets, zip fly + button, belt loops, elasticated waistband
- Colours: Grey and orange
- Sizes: S to 4XL

Benefits :

- Protection against thermal and electrostatic hazards
- Great comfort thanks to cotton
- Everyday practicality with multiple pockets
- Quick-fit with elasticated waistband
- OEKO-TEX® certified fabric, free from harmful substances

These trousers comply with the following main personal protection standards:

- EN 13034: Protection against splashes of liquid chemicals.
- IEC 61482-2, APC 1: Protection against the thermal effects of an electric arc.
- EN ISO 11611, class 1 A1+A2: Protection for welding and related techniques.
- EN 1149-5 : Electrostatic properties to prevent explosion risks.

- EN ISO 11612 (A1+A2, B1, C1, E3, F1): Protection against heat and flame.
- EN ISO 13688: General requirements for protective clothing (ergonomics, comfort, marking, etc.).
