SRT SHERMAN climbing work trousers

Description

Designed for professionals in pruning, working at height and difficult access, the SHERMAN trousers are designed for the demands of SRT climbing and technical environments.

Thanks to their 4-way stretch ripstop fabric, they offer excellent freedom of movement without compromising robustness.

Cordura® 500D reinforcements (shins, calves) and Armortex® Kevlar® (knees) provide extra protection against abrasion, impact and wear. Ideal for demanding forest or urban environments.

Technical features:

- Dual quick-access pockets: can be used standing up or suspended in the harness
- Ventilation zips at the back of the legs to regulate heat
- M.O.L.L.E. loops: perfect for guiding and organising the rope during SRT ascents
- Lower-leg retention hooks: limit the ingress of debris
- Teflon® treatment: repels water and dirt

Technical composition:

- Main fabric: Ripstop 4-way stretch - 92 % Nylon®, 8 % Spandex® - 160 g/m² - Kevlar® Armour
- Knees: Kevlar® Armortex® - 170 g/m² - Cordura
- Shins & calves: Coated Cordura® 500D - 235 g/m²

Caractéristiques

- Tailles : XS à 2 XL
