Chain saw protective gloves (Class 1)

Description

Designed to offer optimum protection while maintaining user comfort, these gloves have been specially developed for professionals working in high-risk environments, particularly with chain saws. Thanks to their Class 1 / Design A / Type 2 design, they provide enhanced protection for the left hand, while guaranteeing flexibility and durability.

Technical specifications :

- Certified protection against chainsaw cuts up to 20 m/s (Class 1).
- Design A: targeted protection on the back of the left hand.
- Type 2: specifically reinforced for the left hand, which is most exposed when using a chainsaw.
- Level 3 abrasion resistance (on a scale of 1 to 4).
- Level 3 tear resistance (on a scale of 1 to 4).
- Level 2 puncture resistance (on a scale of 1 to 4).
- Palm: robust grain leather for excellent durability and grip.
- Reinforcements: rubber-coated textile for increased abrasion resistance and durability.
- Back: stretch nylon for optimum comfort and freedom of movement.
- Cuffs: elasticated with Velcro fastening for a secure, quick fit.

Complies with :

- EN ISO 21420:2020 - General requirements for protective gloves
- EN 388:2016 + A1:2018 - Mechanical protection: 3232X
- EN ISO 11393-4:2019 - Protection against chainsaws (Class 1, Design A, Type 2)

Caractéristiques

- Tailles : 7 à 12
