PETZL PIXA headlamp

## Description

The PIXA headlamp is the essential lighting tool for professionals in industry, maintenance and demanding technical environments. Designed for intensive use, it combines robustness, waterproofing, ease of use and lighting performance.

- Shockproof (IK08), dropproof (up to 2 m) and crushproof (up to 80 kg)
- Extremely waterproof: IP68 - immersion up to 2 metres for 1 hour
- Resistant to certain chemicals: 90° alcohol, bleach, white spirit, hexane (one of the main components of petrol), silicone for seals.

High-performance, constant lighting:
- Up to 450 lumens in BOOST mode
- CONSTANT LIGHTING technology: stable light intensity throughout use
- 3 types of beam:
Wide: comfortable vision for close work
Mixed: for moving around
Focused: for seeing at a distance

- One rotary knob for use even when wearing gloves
- Positioning on helmet via SLOT ADAPT (supplied) or HELMET ADAPT (optional)
- Adjustable lamp, remote button to avoid dirtying the optics
- Automatic lock on switch-off to prevent accidental switching on
- Charge indicator on switching on and off
- Adjustable, removable and washable headband
- Compatible with AAA batteries (included) or CORE rechargeable battery (not included) - HYBRID CONCEPT system

Technical specifications :
- Weight: 138 g
- Output: 450 lumens (BOOST mode)
- Protection rating: IP68

- Resistance: IK08 (EN/IEC 62262)
- Power supply: 3 AAA/LR03 batteries (included)

Not suitable for use in potentially explosive atmospheres

## Caractéristiques

- Type de faisceaux : Large, mixte, focalisé
