PETZL PIXA R headlamp

### Description

The PIXA R is a headlamp designed for industrial environments and intensive maintenance work. Robust, waterproof and resistant to chemicals, it provides lighting power of up to 600 lumens in BOOST mode, with constant intensity thanks to CONSTANT LIGHTING technology. It's easy to fit on a helmet, even when wearing gloves.

Powerful, versatile lighting:

- Up to 600 lumens with BOOST mode (10 seconds)
- 3 beam types: wide, mixed, focused
- CONSTANT LIGHTING technology: stable intensity throughout use

Rechargeable and long-lasting:

- Supplied with CORE PRO battery (1250 mAh)
- Direct recharge via external contact (cable included)
- Removable and replaceable battery for extended autonomy

Ultra-rugged for tough environments:

- Resistant to shocks (IK08), drops (up to 2 m) and crushing (80 kg)
- Dust-tight and waterproof (IP68 - immersion 2 m for 1 h)
- Resistant to certain chemicals (alcohol, bleach, white spirit, hexane, silicone)

Ergonomic and easy to use:

- Single rotary knob for use with gloves
- On/off battery level indicator
- Automatic locking function to prevent accidental ignition
- 180° rotation system to protect the lens
- Adjustable, removable and washable headband

Helmet mount included:

- Compatible with Petzl helmets via the SLOT ADAPT plate (supplied)
- Compatible with HELMET ADAPT (optional) for all helmet types

Technical specifications:

- Power: 600 lumens (BOOST mode)
- Weight: 130 g
- Beams: wide, mixed, focused
- Water resistance: IP68 (immersion up to 2 m / 1 h)
- Robustness: IK08 (EN/IEC 62262)
- Power supply: CORE PRO 1250 mAh rechargeable battery (included)
- Charging time: 3h30
- Certifications: CE

Not for use in potentially explosive atmospheres

## **Caractéristiques**

- Power : 600 lumens
- Weight : 130 g
