

WASHING MACHINE FOR MEDIUM-SIZED PPE

<https://www.securhit.com/en/ppe-accessories/1213-machine-de-lavage-pour-epi-moyenne-dimension.html>

Washing machine for medium-sized PPE

Description

Designed for the effective cleaning of ARICO helmets and masks, this machine boasts a higher capacity than the MDL-500 model, while retaining a robust 304 stainless steel double-jacket structure.

The use of rotating jets ensures complete spraying of equipment, guaranteeing even washing of all surfaces, including hard-to-reach areas.

Technical specifications:

- Washing capacity:
Up to 10 ARICO masks
3 helmets
- Power supply: 3-phase 400V / 50Hz / 3+N
- Product consumption : 10 L for approximately 400 washing cycles
- Pumps: 2 x 1 HP for washing and rinsing
- Adjustable temperatures:
Washing: up to 60°C
Rinsing: up to 80°C
- Automatic tank filling
- Basket dimensions: 500 x 600 mm
- Gravity drain: connection up to 200 mm high
- Safety: automatic stop when door is opened
- Automatic dosage of washing and rinsing products
- Compliance: CE certified
