GORGUI CLASSIC multifunction rake - Wooden handle

Description

Designed specifically for fighting forest fires, the GORGUI CLASSIC is the result of the experience of emergency response teams and meets the requirements of professionals in the field. This versatile tool combines the functions of the main hand tools in a single piece of equipment, eliminating the need to carry multiple items.

The GORGUI CLASSIC offers total versatility, capable of adapting to all types of terrain thanks to the combination of the most commonly used tools in firefighting.
Its removable head makes it more convenient to transport and store, without compromising on strength.
Made from wear-resistant steel with a hardness of 500 HB, it guarantees exceptional robustness and a long service life.
Its ergonomic 1.25 m eucalyptus wood handle provides excellent shock absorption and optimal comfort of use.
