OPERATOR EVO 4 □ High-Visibility Rescue Vest for Professionals

Description

The Operator Evo 4 Vest is specially designed for professional rescuers and helicopter rescue teams, providing visibility, comfort, and safety during mountain operations or interventions in exposed environments.

Made from durable, breathable polyester, it ensures optimal ventilation while maintaining the body at an ideal temperature.

MAIN FEATURES

- High visibility: polyester vest with segmented reflective strips for maximum safety
- Comfort and breathability: mesh panels for enhanced air circulation
- Practical storage: zipped pockets on the front, chest, and back to keep essential tools within reach
- Integrated pruner holder: connected to a retractable yoyo system for fast and secure use (MAJH00US)
- Effective communication: radio pocket with drawstring and securing loop
- Harness compatibility: internal Velcro system with zip openings on the chest for easy harness attachment
- Modular accessories: compatible with the Pocket Operator accessory, attachable via zip
- Reflective applications: improved visibility in all conditions
- Professional use: designed for rescue technicians, helicopter operations, and exposed-site missions

SPECIFICATIONS

- Weight: 410 g
- Materials: high-strength polyester and breathable mesh
- Additional features: central front zipper, zipped hand pockets, secure pruner attachment, integrated harness connection system

The Operator Evo 4 Vest is the perfect choice for professionals seeking safety, practicality, and visibility

during rescue missions in demanding environments.
