Midroï Suit □ Reinforced Caving Suit for Temperate and Dry Caves

Description

The Midroï suit is specially designed to provide reinforced protection and excellent freedom of movement during explorations in temperate and dry environments.

Made from Cordura® 500D fabric, it offers exceptional abrasion resistance while remaining lightweight and breathable.

Technical Features

- Main fabric: lightly coated Cordura® 500D, strong and durable.
- Seams: high-strength polyamide thread with double stitching for maximum durability.
- Reinforcements at seat and knees: double layer of fabric for enhanced protection.
- Back gusset: improves freedom of movement.
- Elasticized back waist for a better fit.
- Front closure with high-adhesion Velcro®.
- Cuff adjustment with Velcro®.
- Water drainage at the knees thanks to a specific assembly.

Practical Storage

- Left side: 1 external pocket (16 × 19 cm) with 2 gear holders, Velcro® flap with strong adhesion, and PVC tab for easy handling.
- Right side: 1 large internal pocket (full width, H = 16 cm) with 2 gear holders and lateral Velcro® opening with strong adhesion.

The Midroï suit is available on request in three cuts to fit all body types:

- Regular

- Tall
- Curvy
