MINI WYE PN40 Division with Key Handles - High-Pressure Aluminum Valve DN20

Description

The MINI WYE PN40 Division with key handles is a compact and robust aluminum valve designed for industrial and fire safety installations requiring optimal flow and maximum reliability. Its first-cast aluminum alloy construction, heat-treated, with a polyester coating, provides high resistance to corrosion and harsh environments.

Technical Specifications
- Valve type: MINI WYE PN40
- Inlet: Female GFR DN20 PN40
- Outlets: 2 Male GFR DN20 PN40
- Inlet/ Outlet material: Red anodized aluminum
- Full bore design: Ensures optimal flow with minimal pressure loss
- Operation: 1/4 turn, for fast and secure handling
- Dimensions: 146 x 187 x 75 mm
- Weight: 0.99 kg
- Nominal pressure: PN40

Key Advantages
- Durable and robust material suitable for demanding environments
- Smooth flow guaranteed thanks to the full bore design
- Easy installation and handling with key handles and quick operation
- Compact and lightweight for convenient on-site use

Caractéristiques

- Dimensions : 146 x 187 x 75 mm
- Weight : 0,99 kg
- Pression nominale : PN40
