Piguillem Stretcher □ Reliable and High-Performance Rescue Equipment

### Description

The Piguillem Stretcher is a durable and reliable rescue solution, designed for operations in the most demanding environments. Its robust and practical design ensures safety, efficiency, and mobility in professional interventions.

#### Key Features:

##### Sturdy and Practical Construction:

- Epoxy-coated steel tube frame for maximum durability and strength.
- Foldable design for easy transport and storage in confined spaces.
- Intuitive and easy to use without specialized skills.

##### Durability and Safety:

- Suitable for extreme conditions, including mountains, confined spaces, or challenging environments.
- Heavy-duty PVC fabric provides protection and long-lasting performance.
- Strong structure ensures secure support for the casualty.

##### Secure and Controlled Transport:

- Internal harness keeps the casualty safe in any transport position.
- Standard sling and removable carrying forks allow precise and controlled handling.

##### Dimensions and Weight:

- Unfolded: 180 x 57 cm
- Folded: 94 cm
- Weight: 14.8 kg

##### Professional Applications:

Designed for situations where casualty safety and equipment reliability are critical, the Piguillem Stretcher is ideal for rescue operations in extreme conditions and demanding professional missions.
