Franco Garda Carry Harness □ Easy and Ergonomic Stretcher Transport

Description

The Franco Garda carry harness is an essential accessory for easier stretcher transport, designed for two-person carrying with the standard L150 carrying bars. It also allows the transport of the folded stretcher and wheel, ensuring ergonomic and secure handling during rescue operations.

Key Features:

- Designed for two-person carrying with standard L150 bars
- Allows transport of the folded stretcher and wheel
- Lightweight and compact (800 g) for easy handling

Benefits:

- Reduces rescuer fatigue with improved ergonomics
- Compatible with all Franco Garda stretcher models
- Ideal for rough terrain or long-distance transport
- Secures stretcher and wheel during transport

The Franco Garda carry harness is the perfect accessory to optimize mobility and safety during professional rescue operations.
