Standard Carrying Bars L150 - Franco Garda Stretcher Accessory

Description

The Standard Carrying Bars L150 are an essential accessory for the Franco Garda stretcher, designed to provide stable and secure transport of casualties. This set ensures efficient handling, even over challenging terrain.

Key Features:

- 4 high-strength aluminum bars for durability
- Transport bag included for easy storage and mobility
- Folded length: 150 cm
- Maximum load: 150 kg

Benefits:

- Lightweight and robust (6.3 kg) for easy transport
- Quick and secure installation on the Franco Garda stretcher
- Enhances safety and comfort for the casualty during transport
- Compatible with all standard Franco Garda stretcher systems

The Standard Carrying Bars L150 are ideal for rescue operations in extreme environments, offering stability, durability, and efficiency for professional rescue teams.
