RR3 Rescue Sled - Professional Inflatable Rescue Board (3 m)

Description

The RR3 Rescue Sled is a professional inflatable rescue board designed for water rescue operations and interventions in challenging environments. Lightweight, durable, and easy to transport, it enables rapid response in a wide range of environments including rivers, canals, lakes, flooded urban areas, wetlands, estuaries, coastal zones, snow, and ice.

Its Drop-Stitch (Double Wall Fabric DWF) construction with a 15 cm thick floor provides excellent rigidity, stability, and buoyancy, ensuring safe operations when recovering victims. With a capacity of 2 rescuers + 1 casualty and a maximum load of 300 kg, the RR3 is a versatile rescue platform that can be paddled, pulled by hand, or towed by a jet ski or boat.

Technical Specifications
- Capacity: 2 rescuers + 1 casualty
- Maximum load: 300 kg
- Dimensions: 3 m x 1 m
- Internal width: 100 cm
- Weight: 15.5 kg
- Floor type: Drop-Stitch welded fabric (Double Wall Fabric DWF)
- Floor thickness: 15 cm
- Maximum inflation pressure: 0.7 bar
- Handles: 11 total (6 small + 5 medium) for secure handling
- D-rings: 19 stainless steel SS316 attachment points
- Colors : Yellow / Orange / Red / Black

Included Equipment
- Double-ended aluminium paddle
- Inflation valve fittings

- High-pressure manual inflation pump
- Maintenance kit (tools and repair patches)
- Storage bag
- User manual

Caractéristiques

- Dimensions : 3 m x 1 m
- Weight : 15.5 kg
- Charge maximale : 300 kg
