

FULL BODY HARNESS CHILD SPORT MARMOSET

<https://www.securhit.com/en/harnais-et-baudriers/126-harnais-complet-sport-enfant-ouistiti.html> Harness for children under 30 kg

Description

Especially easy to put on and adjust, it does not require a connector to be fastened, and the adjustment system is difficult for a child to access.

The proper donning is facilitated by holding and shaking the harness from the orange dorsal point, the semi-rigid structure is color-coded (gray foam interior and blue exterior) for easy donning.

The primary adjustment is done on the shoulder straps with the DoubleBack buckles and the secondary adjustment, for small or big children, is done with the DoubleBack buckles on the back of the harness.

Comfortable to wear on the ground or when suspended: quilted closed-cell foam structure on the leg loops, positioning waistbelt and shoulder straps and the green front tie-in point is reinforced and lower, for greater comfort when climbing, particularly during descents.

Made of high-strength polyester webbing, closed-cell foama and polyester

Waist belt: 58-70 cm - Leg loops: 32-40 cm

Color: methyl blue - Weight: 410 gr

Harness comes in a protective carry bag

Certification CE EN 12277 type B, UIAA
