

PETZL OUISTITI HARNESS

<https://www.securhit.com/en/harnesses-and-belts/126-harnais-complet-sport-enfant-ouistiti.html>

Complete PETZL OUISTITI climbing harness for children under 30 kg. A very comfortable and ultra-reliable piece of equipment for discovering climbing in complete safety.

Description

Climbing for pleasure, discovering the joys of climbing: would your child like to try out or deepen the techniques of this sport? Ultra-safe equipment is essential to enjoy the pleasures of this activity in complete safety.

- Easy installation thanks to semi-rigid harness design and color-coding
- Closed-cell foam interior for maximum comfort (thigh, waist and shoulder straps)
- DOUBLEBACK buckles on shoulder straps for easy harness adjustment (not accessible to child)
- Additional adjustment with further DOUBLEBACK buckles on the back of the harness
- Connectorless closure for greater freedom of movement
- Enhanced comfort with reinforced, lowered front tie-in point (green color)
- Orange color-coded back attachment point

The OUISTITI full-body climbing harness from PETZL comes in a pouch for easy transport and protection.

Waist circumference: 58-70 cm, thigh circumference 32-40 cm, weight 410 g
